Government Relations Superintendent | Tiris Ressources

Tiris Ressources SA, a subsidiary of Aura Energy, is recruiting an experienced Government Relations Superintendent to manage its day-to-day interface with the Mauritanian administration and the permitting of the Tiris Uranium Project.

About Us

Tiris Ressources is a subsidiary of Aura Energy Limited, an Australian Stock Exchange listed (ASX: AEE) uranium company with projects in Mauritania and Sweden. The near-term-production Tiris Uranium Project in Mauritania has significant opportunities for both resource and production-profile expansion. With the company poised to commence financing and ultimately construct and operate Mauritania's first uranium mine, this role will ensure that every permit, authorisation and statutory obligation behind the project is complete, lodged and followed through to decision.

About the Role

Reporting to the Director General of Tiris Ressources, you will manage the Company's day-to-day interface with the Mauritanian administration at national, regional and local level. You will prepare official correspondence and permit applications for the Director General's signature, lodge and follow each file through to decision, own the Company's register of permits, authorisations and statutory obligations, and prepare briefing notes for the Director General's engagements with ministries and agencies. The Director General retains the Company's relationships at ministerial and senior-official level; you make sure the files behind them are complete and on time.

Based in Nouakchott with regular travel to Zouerate and Bir Moghrein, this is a hands-on role for a professional who knows the Mauritanian administration from the inside and wants to carry the permitting of Mauritania's first uranium mine.

About You

- Mauritanian national with a tertiary qualification in law, public administration, business, engineering or a related field
- 7 to 10 years' experience in the Mauritanian public administration, or in a government relations, permitting or liaison role for a mining, energy or industrial company operating in Mauritania
- Practical knowledge of the Mauritanian mining, environmental, labour and customs frameworks and of the procedures of the relevant ministries and agencies; established networks within the Ministry of Mines and the Ministry of Environment, and preferably the Tiris Zemmour regional administration
- Fluent Arabic and French, spoken and written, with strong drafting skills in both languages for official correspondence; working proficiency in English
- Rigorous and organised, able to run many files in parallel to deadline; proficient in Microsoft Office and comfortable maintaining registers and trackers
- Discretion and integrity; rigorous attention to detail and documentation; builds trust with officials at all levels

How to Apply

Please send your CV and a brief cover letter explaining why you are interested in this role to recruitment@auraee.com

Applications close Friday 4 December 2026.
